## **A** about us

With almost 50 years experience, Triple A Welding has become one of the most complete fabricating facilities in the Southeast. Triple A's operations are equipped to produce almost any steel project.

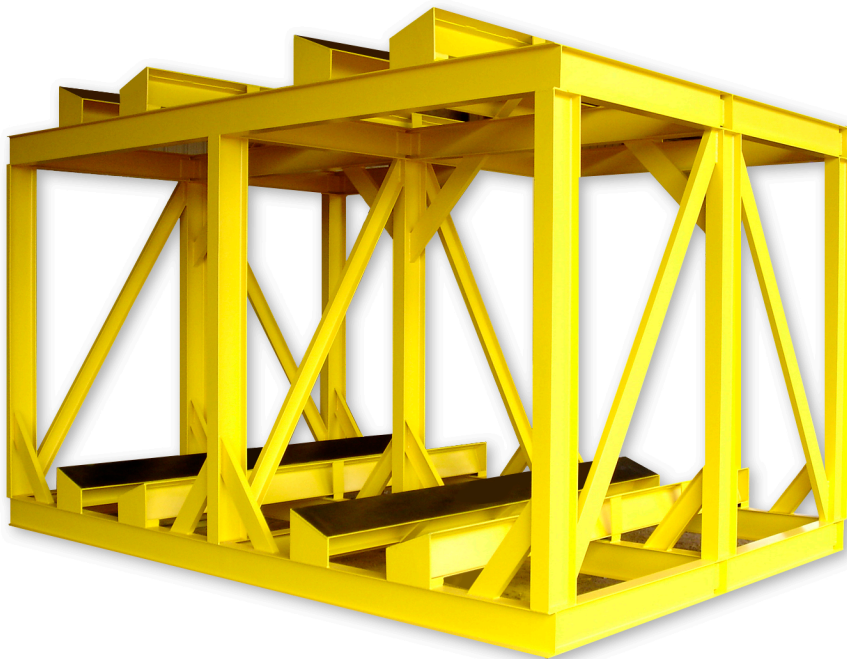

To improve its competitive edge in today's rapidly changing marketplace, Triple A is maximizing quality and productivity while minimizing cost.

Triple A Welding, Fabricating and Machine Company is the company for your steel fabricating needs.

## **A** our mission

At Triple A Welding, we understand the importance of a quality product and a quick delivery. These are only two of the reasons you have chosen us to meet your steel fabricating needs for the past five decades. We will continue to provide you with fine quality products and consider it a privilege to serve you.

## **A** our history

Looking for extra income, in 1964 the Askew brothers, Bill, Doyle, and Bob purchased Kingsley Welding Shop, a small business in Sheffield, Alabama.

This welding shop of no more than 2,400 square feet instantly became the fastest growing steel fabricating facility in the area.

In 1969, the company expanded into a new 20,000 square foot facility. Today, Triple A Welding is a preferred steel fabricator for companies nationwide.
